EDUCATION

Noida Institute of Engineering & Technology (NIET) **September 2024 – July 2028**
Bachelor of Technology in Computer Science Greater Noida, India
CGPA: 9.3/10.0 | Expected Graduation: July 2028
Relevant Coursework: Data Structures & Algorithms, Operating Systems, Computer Architecture & Parallel Processing, Object-Oriented Programming, Discrete Mathematics, Calculus

Holy Public School **Graduated: 2024**
Senior Secondary Education Greater Noida, India
Percentage: 81.8%

TECHNICAL SKILLS

Programming Languages: Python, C++, C, HTML/CSS
Web Technologies: Flask, SQLAlchemy, Bootstrap, Jinja2, RESTful APIs, WTForms
Database & Tools: SQLite, Git, Selenium, BeautifulSoup, Pandas
APIs & Services: Amadeus API, Nutritionix API, Twilio, Spotify API, SMTP, Sheety API
Core Competencies: Data Structures & Algorithms, Web Scraping, Automation, OOP, Problem Solving
Software: Microsoft Office Suite, Tkinter, VS Code

PROJECTS

Full-Stack Blog Platform | GitHub **December 2025**
Flask, SQLAlchemy, Bootstrap

- Designed and developed a full-stack blogging platform to enable secure content creation, management, and user interaction
- Implemented role-based authentication and session management using Flask-Login and SQLAlchemy ORM
- Built a responsive frontend with Jinja2, Bootstrap, and CKEditor to support rich-text publishing

Flight Deals Automation System | GitHub **November 2025**
Python, Amadeus API, Twilio, Sheety

- Developed an automated system to monitor flight prices and identify low-cost travel opportunities
- Integrated Amadeus API and Google Sheets (via Sheety) to manage destinations, IATA codes, and target prices
- Enabled real-time WhatsApp and email notifications using Twilio and SMTP for timely user alerts

Exercise Tracker using NLP APIs | GitHub **September 2025**
Python, Nutritionix API, REST APIs

- Built an exercise tracking system that converts natural language workout descriptions into structured fitness data
- Utilized Nutritionix NLP APIs to extract exercise type, duration, and calorie estimates from free-text input
- Automated workout logging with timestamps to Google Sheets using RESTful API integration

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- **LeetCode:** Solved 92+ algorithmic problems with 72.5% acceptance rate | Contest Rating: 1532 | Global Rank: Top 35%
- **Project Portfolio:** Developed 35+ Python projects including full-stack web applications and API-driven automation systems
- **Certifications:** Earned 5+ professional certifications including Programming in Python, C, Next Gen Technology, and CodSoft Software Development Internship
- Collaborated in team-based hackathons to build and present software solutions
